## DONGGUAN SHENGEN METAL CO.,LTD

Dongguan Shengen metal Co Ltd has been in business since 2013. We specialize in fabricating parts and assemblies made of Carbon Steel, Stainless Steel, Aluminum, and extruded metal from design to finished product. We also offer Engineering and Design options per customer request. We have implemented a successful in process and final inspection quality control system that has met the needs of our current iso 9000 customers. We currently have a 5000 sq.ft. Manufacturing Facility and a 800 sq.Ft. Powder Coating Facility. We currently employ 100 employees with internal job specific training with qualification/certification processes.
